

# Millance Copy Trading Policy

## Overview

---

Copy Trading enables investors to automatically mirror the trades of skilled traders in real-time. This approach is perfect for beginners or those who prefer a hands-off strategy while benefiting from the expertise of professional traders.

## How Copy Trading Works

---

### For Investors (Followers):

- Choose a professional trader from Millance LTD's copy trading platform.
- Set your capital allocation to automatically replicate their trades.
- Every trade executed by the selected trader will be mirrored in your account.
- You can withdraw profits or stop copying at any time.

### For Strategy Providers (Traders):

- Skilled traders can offer their strategies for investors to copy.
- Earn performance fees or commissions from investors who follow their strategies.
- Maintain transparency with detailed performance history and risk analytics.

**Key Benefits:** Investors can benefit from market opportunities without needing trading experience.

## Features Of Copy Trading On Millance

---

- **Automatic Trade Execution:** Trades are executed automatically, eliminating the need for manual trading.
- **Risk Control Settings:** Investors can set maximum drawdown limits to manage potential losses.
- **Real-Time Monitoring:** Access detailed trade history, performance metrics, and statistics of copied traders.
- **Flexible Stop & Exit:** Stop copying a trader at any time without any penalties.
- **Diverse Strategies:** Choose from a wide range of trading styles, including scalpers, swing traders, and long-term investors.

## Fees & Revenue Model

### For Investors

- **Performance-Based Fee:** Investors may pay a fee based on the profits earned, set by the copied trader.
- **Subscription Fee:** Some strategy providers may charge a fixed subscription fee.
- **Proportional Profits and Losses:** Gains or losses are calculated based on the investor's allocated capital.

### For Strategy Providers (Traders):

- **Earnings from Commissions or Profit-Sharing:** Traders receive a portion of profits generated for their followers.
- **Higher Earnings with More Followers:** The more investors copying a strategy, the higher the potential income.
- **Performance Consistency:** Traders must maintain strong performance to retain and attract new followers.

## Risk Warning & Responsibilities

### Copy Trading isn't Risk Free!

- **Potential Losses:** Investors may incur losses if the copied trader makes losing trades.
- **No Guaranteed Profits:** Past performance does not guarantee future results.
- **Risk Review:** Investors should thoroughly assess a trader's risk profile and performance history before copying.
- **No Profit Assurance:** Millance LTD does not guarantee profits or provide protection against trading losses.

**Investor Responsibility:** Clients must fully understand the risks involved before participating in copy trading.

## Terms & Conditions For Copy Trading

**Investor Control:** Investors maintain full control of their accounts and can modify copy settings at any time.

**Ethical Trading Practices:** Traders must adhere to ethical trading standards. Any misuse of the platform may lead to suspension.

**Fee Adjustments:** Millance LTD reserves the right to adjust platform fees based on market conditions.

**Withdrawal Management:** Withdrawal requests do not affect copied trades, but closing trades may impact returns.
